

HEALTHYBUILDINGS

Creating healthy, safe, sustainable and intelligent indoor environments is more important than ever. Carrier provides fire & security solutions that leverage the connectedness of building systems to enhance the occupant experience. Numerous opportunities exist throughout facilities to improve the well-being of employees, visitors, students, patients and other occupants by delivering safer and more productive environments that build confidence.

HVAC
Enhance occupant productivity and health with improved air quality and ventilation

EMERGENCY RADIO COMMUNICATION ENHANCEMENT SYSTEM
Protect lives by helping to ensure first responder communication throughout a building

REMOTE MONITORING
Improve system performance and responsiveness at any time from any location

VOICE NOTIFICATION
Direct evacuation with clear communications technologies

MULTI-CRITERIA DETECTION
Reduce occupant stress from nuisance alarms and boost safety with intelligent detectors

INDOOR LOCATION SERVICES
Further enhances touchless access solutions for efficient navigation and healthy buildings experiences

OCCUPANCY MANAGEMENT SOLUTIONS
Leverage data, reports and notifications to monitor and restrict access in conference rooms and common spaces

ELECTRONIC LOCKS
Personalize access, safeguard occupants and secure private spaces

CONTACT NOTIFICATION
Support reduced virus spread via proactive report on possible exposure

UNIFIED SECURITY MANAGEMENT
Integrate access control and video management solutions for a holistic experience

CONNECTED FIRE SYSTEM
Help save lives and protect buildings with an integrated infrastructure

SELF-ASSESSMENT SOLUTIONS
Minimize risk by requiring occupants and visitors to confirm their health status before entering a building

THERMAL, MASK DETECTION & BIOMETRIC SCREENING SOLUTIONS
Add an extra level of protection to help ensure the health and safety of anyone entering the space

SYSTEM SURVIVABILITY
Ensure systems performance when it is needed most—especially in networked systems

HANDS-FREE MOBILE CREDENTIALING
Modernize occupant experience and reduce physical touchpoints

ACCESS CONTROL
Manage entry, exit and occupancy through custom protocols

LIFE SAFETY & EMERGENCY MANAGEMENT SOLUTIONS

- Reduce nuisance alarms
- Improve notification capabilities
- Check facilities remotely

UNIFIED SECURITY MANAGEMENT

- Deliver proactive protection
- Create fewer touch points
- Enable safer occupancy levels

INDOOR AIR QUALITY

- Monitor indoor air quality
- Optimize based on performance
- Integrate with other building systems

Creating healthier indoor spaces and inspiring confidence in the places where we live, work, and play has never been more important. Now is the time to work together to unlock the enormous potential of healthy buildings. Join the movement by learning about our Healthy Buildings Program at carrier.com/healthybuildings.
