CarrierUniversity.com

Sustaining Willis Carrier’s vision, Carrier University has trained the HVAC industry since 1929.

In the early 20th century, Willis Carrier began his legacy of heating, ventilation and air-conditioning (HVAC) innovation ... and today, Carrier continues to train the industry in all aspects of HVAC. Carrier University is a premier learning organization with locations throughout the world. Carrier University offers comprehensive HVAC training in a wide range of areas including technical skills, sales and marketing

skills, business management, customer service, controls and HVAC design. Carrier University students include dealers, distributors, technicians, designers, contractors, consulting engineers, sales and service personnel. Students benefit from a variety of training methods including traditional classroom settings, self-study literature programs, remote training sessions, and on-line web-based learning systems.

- Carrier University Training Center
- Brand new facility in Charlotte, NC
 - Four classrooms
 - Product laboratory
 - Production studio

- Product Laboratory
- Hands-on commercial HVAC training
 - Variety of HVAC equipment installed
 - Instructor programmed bugs for troubleshooting exercises

- Interactive Controls Laboratory
- Controls training simulators
 - User interface training

- CarrierUniversity.com
- Dedicated web site
 - Electronic catalog of training
 - On-line registration
 - Web-based learning management system
 - Updated schedule of in-person class offerings

- Carrier University Online
- Self-paced online training courses
 - On-demand video replays
 - Accredited through IACET
 - PDH/CEU offerings available for select courses

- Building Modeling Software
- Load calculation
 - System sizing
 - Energy Modeling
 - Lifecycle economic analysis of HVAC design alternatives
