

CARRIER AIRCONDITIONING & REFRIGERATION LIMITED CSR Initiatives

United for Air is a Corporate Social Responsibility initiative by Carrier to call upon each individual and organisation to unite in support for clean air. We envision a campaign where all stakeholders make a collective effort towards change. Carrier has always spearheaded technological innovation along with environmental conservation. United for Air is one such step towards a safer and brighter future.

United Way Delhi under its flagship Anti-Pollution Campaign titled 'United for Air' aims to sensitize and spread awareness regarding air pollution. It further aims to reduce the overall carbon footprint in the Delhi-NCR region.

Green Your School

Green your School is a joint initiative with Indian Green Building Council. It is an annual program open to schools across India. The schools are encouraged to come up with sustainable ideas, which can improve and convert the existing school into an environment friendly school that helps reduce carbon footprint. One teacher and three students from each school team up and develop ideas for implementation in the school. Jury members from United Way Delhi, Carrier, IGBC and experts from different fields evaluate the presentations received from schools across country and top eight finalists are selected based on jury selection.

The top three schools are given an opportunity to present these ideas to final jury, which is held during IGBC's flagship event Green Building Congress in September. Winners get funding to implement those ideas. We are running this programme from 14 years in succession.

A loving home for every child

Carrier has been funding project "Samarth" to support the quality education of 71 children at three locations of SOS in order to bring sustainable changes in their lives.
