*School Adoption Program (SAP) It is an initiative to enable government schools in rural areas to provide the same learning outcomes as urban private facilities. It is also to empower governance school system to motivate, enable and facilitate students in learning and performing better in their academics. The SAP program ensure basic infrastructure including toilets, classrooms, electricity and furniture. CTIL envisions that this program would bring more admissions into adopted school besides providing comfortable learning environment for existing students. The school management including teachers also will be empowered, motivated to impart quality education*
