BLUEDGE SERVICES

24/7 Emergency Support & Prioritisation

Stay ahead of failures and reduce operating costs, available 24/7. Service agreement customers receive priority for service calls.

IAQ Offerings

Continuously monitoring the indoor air quality together with corrective system changes, ensures air quality meets healthy (and legislative) levels.

ABOUND HVAC Performance

Connect your equipment to Carrier's cloud-based IoT platform, securely sharing real-time data to visualise, analyse and optimise machine health and life cycle outcomes.

Annual Preventative Maintenance

Our technicians perform thorough maintenance that ensures longevity. Cooling and heating start-up services ensure optimal seasonal performance.

Operating Inspections

Carrier thoroughly inspects and adjusts your equipment to keep it running smoothly and efficiently.

Preventative Maintenance

Receive more frequent preventative maintenance outside of the standard preventative maintenance schedules based on individual equipment requirements and needs. Examples include but are not limited to coil cleaning, tube brushing, filter changes, and more.

On-site Predictive Maintenance

Advanced on-site diagnostic service options expose hidden problems before they become emergency issues and schedule repairs at times most convenient for you.

Unscheduled Repairs, Parts & Labor

Repair or replacement of moving parts and maintainable components that may have failed unexpectedly.

ABOUND HVAC PERFORMANCE
