Where are we?

24/7 Emergency, Nationwide Coverage

Carrier Rental Systems operates an emergency 24/7 rental service, 365 days a year, providing immediate response and fast nationwide delivery to support your needs. With rental facilities strategically located in Scotland, Ireland, Northern Ireland, England and Wales, we can provide nationwide coverage whenever, wherever you need it.

Equipment can be mobilised and into the transport network within minutes providing you with one of the fastest response times from any industrial climate control rental company in the UK and Ireland.

Support – 24 hours, 365 days a year

Our experienced specification teams are on hand from the earliest stages of a project to give you the best solution. Whatever your enquiry, you can rest assured that our teams will provide you with the most suitable, efficient and cost effective solution.

A complete 24 hour support and maintenance service is provided throughout the rental period. This service is supported by experienced and fully qualified teams operating from our dedicated service centres throughout the UK and Ireland giving you peace of mind.

Ready to supply, right place, right time

Our equipment is drawn from a large, highly invested rental fleet. Our own experienced engineers service and maintain the equipment and test it prior to mobilisation. Our installation teams provide the reassurance that on-site we can deliver, install, optimise performance and de-install with maximum efficiency.

Complete Flexibility

Carrier Rental Systems offers short, medium and long term rental contracts to suit the needs and demands of your business, minimising capital expenditure.

We're your specialist team

Understanding your rental needs

Coping with customers' emergency requirements is an everyday occurrence for Carrier Rental Systems and our service delivery is geared to match. We have a comprehensive support service which includes a complete pre-hire system design and equipment specification service. This enables you to obtain the most efficient and cost effective solution to match your particular rental requirements.

Technical expertise – planning and analysis

Whatever your rental need, our specification teams analyse every project to ensure that our rental solution is tailored to meet your circumstances precisely. All systems are designed with high levels of reliability, efficiency and performance as a must. This provides you with minimum running costs and maximum operational benefits.

Specialist Industry Expertise

Carrier has many years' experience hiring temporary cooling and heating solutions to an extensive range of industries, providing our clients with flexible, cost effective and high value solutions. Facilities Management

Emergency, Nationwide Rental Solutions

How do we support you and your clients?

- ✓ **PLANNED AND EMERGENCY SUPPORT**
- ✓ **24/7 NATIONWIDE SERVICE AND IMMEDIATE DELIVERY**
- ✓ **SPECIALIST APPLICATION TEAMS**
- ✓ **TURNKEY MANAGEMENT SERVICES**
- ✓ **PROBLEM SOLVING**

Whether it be supporting a planned, maintenance shutdown or providing immediate, emergency hire response, Carrier Rental Systems has the knowledge, expertise and experience to support Facilities Management Companies nationwide with both **planned and emergency support**.

Carrier Rental Systems operates a **24/7, 365 days a year, nationwide service**. With rental facilities strategically located throughout the UK and Ireland, we can provide **immediate delivery** to you and your clients, whenever, wherever you need it.

Coping with your emergency HVAC requirements is an everyday occurrence for Carrier and our service delivery is geared to match. Our **specialist application teams** have the skills, knowledge and experience to help solve your problem in no time at all, ensuring minimal downtime.

Carrier provides a **complete turnkey management solution** making any project stress-free. We are used to managing road closures and crane lifts, as well as providing scaffold platforms and safety fencing.

Dedicated account management, free site surveys and contingency planning services complete the picture.

Food and Drink

Fast, Reliable Rental Solutions

How do we support you and your business?

- ✓ **EMERGENCY BREAKDOWNS AND PLANNED MAINTENANCE COVERAGE**
- ✓ **EXTRA CAPACITY – SEASONAL AND PEAK PRODUCTION**
- ✓ **PRODUCT TESTS / R&D**
- ✓ **BATCH PRODUCTION**
- ✓ **CHILLED / COLD ROOM STORAGE**

The costs associated with downtime for any food or drink manufacturer can be catastrophic to a company's bottom line. **Save money, avoid downtime and gain peace of mind.** Carrier Rental Systems provides planned and emergency cooling and heating equipment 24/7, 365 days a year.

Increase capacity and productivity. Gain greater flexibility during seasonal and peak production demands with no long lead times or expensive capital investment. Carrier's highly invested process cooling, air-conditioning and heating fleet is available for immediate, nationwide rental.

Are you considering a new production process, piloting a test plant or involved in **research and development**? Why not test your new product or system by renting inexpensive temporary cooling or heating equipment. Carrier can provide any temperature, flow or output to match any testing and production criteria.

Enhance your output and speed up batch production processes by adding additional cooling hire packages. Carrier's vessel cooling and heating units are available for immediate hire on a short, medium and long term rental basis. **Peace of mind for your plant** with no long lead times and expensive capital expenditure.

On-site, temporary, **cold and chilled storage solutions** are available for hire from Carrier. We provide instant solutions that will allow you to store and preserve your goods without the inconvenience of outsourcing to expensive off-site locations, minimising transportation and labour costs.

Cooling Solutions

Chillers

From 5kW to 1200kW, Carrier Rental Systems offers an extensive range of chillers available for hire.

Carrier Rental Systems offers one of the most state of the art, energy efficient, chiller hire ranges in the UK and Ireland. We provide breakdown cover for chilled water systems, temporary cooling for system upgrades, expansion of existing systems and trials for future production lines/cooling systems.

Air Handlers/Fan Coils

From 15kW to 500kW, Carrier Rental Systems' Air Handling and Fan Coil Range has been designed for quick and efficient installation.

Carrier's Air Handling Units can be positioned outside an area requiring cooling, or alternatively, the units can be positioned within the area. Both our Air Handling Units and Fan Coils can be connected to your existing chilled/hot water circuit or to our Chillers, Heat Pump Chillers or Boilers for a complete and efficient cooling and heating solution.

Portable A/C Units

Carrier Rental Systems provides one of the largest ranges of portable air conditioning and cooling units in the industry.

Portable units are an ideal, fast solution to cool a wide range of applications.

- DUCTED AIR CONDITIONERS
- SPLIT AIR CONDITIONERS
- INDUSTRIAL SPOT COOLERS
- INDUSTRIAL AIR CONDITIONERS
- FANS
- AIR MOVERS
- EVAPORATIVE COOLERS

Cooling Towers

From 500kW to 2000kW, Carrier Rental Systems Cooling Towers are ideal for any application that requires a higher water leaving temperature.

Our cooling towers provide a good alternative solution to clients, without the need for chillers. They are modular in design and can be used as single units or connected in parallel to accommodate larger duties. Circulation pumps and connection hoses are also provided as part of the rental cooling tower package, which enables the units to be incorporated into site cooling water circuits easily and efficiently.

Dry Air Coolers

From 40kW to 1200kW, Carrier Rental Systems' Dry Air Coolers range from single units to multiple units for larger capacity packages.

Dry Air Cooling Systems are an ideal solution to provide cooling capacity during unplanned maintenance periods for industrial processes, to cover breakdowns, damaged units or an expansion of a product line/system upgrade. They are extremely easy and quick to install.

Cold/Chill Stores

Carrier Rental Systems offers cold and chilled storage solutions for areas up to 200,000m³.

Carrier Rental Systems has designed bespoke "low temperature" air handling units for chill store/cold store applications. These units can maintain a low temperature in an existing cold store or in a temporary converted cold store.

Heating Solutions

Boilers

From 22kW to 1000kW, Carrier Rental Systems has one of the most technologically advanced boiler hire fleets in the industry.

All of Carrier Rental Systems' Boilers for hire have been specifically designed and developed for the rental market to offer fast, efficient and reliable hot water solutions. Temporary air heating and hot water systems can be provided on a short or long term rental basis to deal with any application.

Heat Pump Chillers

From 20kW to 250kW, Carrier Rental Systems offers an extensive range of Heat Pump Chillers available for hire.

The Carrier Rental Systems Heat Pump Chiller Hire Range is the ideal all-in-one solution. Our Heat Pump Chillers can be connected quickly and easily, and via the ingenious control system known as Pro-Dialog, all technical parameters can be managed, compressors, fan and water pump operation, optimising electrical energy demand.

Electric Radiant Heaters

From 1kW to 3kW, Carrier Rental Systems' Electric Radiant Heater Hire Range offers some of the simplest, quickest and easiest ways to achieve instant heat.

Our Electric Radiant Heater Units are fully portable, easy to use and economical, making them a good choice for all.

Electric Fan Heaters

From 3kW to 18kW, Carrier Rental Systems' Electric Fan Heaters are extremely portable and fully self-contained, giving ease of use and minimal installation costs.

Our electric fan heaters are powerful and compact. They are double skinned for low outer case temperatures. Additionally some of the units can also be ducted up to 5m.

Direct Gas Fired Heaters

From 3kW to 86kW, Carrier Rental Systems' Direct Gas Fired Heater Hire Range has been designed for applications with well-ventilated areas.

Our direct gas fired heaters are robust and portable, and are perfect to provide instant heat. They have variable heat settings and are dual voltage 110V/240V.

Indirect Fired Heaters

From 70kW to 200kW, Carrier Rental Systems is one of the leading suppliers of heating rental equipment in the UK and Ireland.

Our indirect fired heater range offers reliable and efficient heating solutions that can be ducted. We can supply a range of fuel tanks that complement these heaters along with room thermostats to allow better control and efficiency.

Support Services

Ancillary Equipment

- CIRCULATION PUMPS
 - 2 INCH
 - 4 INCH
- HEAT EXCHANGERS
 - 50 KW TO 2,000 KW
- TEMPORARY SITE POWER
 - SILENCED DIESEL GENERATORS: 15 KVA TO 1250 KVA
 - ELECTRICAL DISTRIBUTION BOARDS
 - ELECTRICAL CONNECTION CABLE: 6 MM TO 240 MM
- BUFFER TANKS
 - 1,000 LTR TO 30,000 LTR CAPACITY

Total Project Management

Carrier is known for innovation and at Carrier Rental Systems this is very much the case with our fleet, ancillary products and services.

Our core fleet of chillers, air handling units, heaters and boilers is enhanced with innovative packages of services that can facilitate the installation of the rental equipment in a timely, efficient and cost effective manner. Our turnkey management capability enables us to make any project stress-free for our customers. We are used to managing road closures and crane lifts as well as providing scaffold platforms and safety fencing.

We can also supply additional items that can be critical to client systems such as heat exchangers, pumps and manifolds. In addition, we regularly undertake diesel fuel management to support our own silenced power generators.

- PLANT MOVEMENT
- SCAFFOLDING
- CATENARY WIRING
- PIPEWORK/HOT TAPPING
- ELECTRICAL MODIFICATIONS
- FUEL MANAGEMENT SERVICE/SUPPLY
- GLYCOL MANAGEMENT SERVICE
- TEMPORARY POWER
- LAGGING
- SKOOTS

catenary wire installation

Contingency Planning

Disaster Avoidance Programme.

This supports clients' risk management processes, all over the UK and Ireland, in preparing their cooling and heating systems to be ready to switch to a temporary or back-up service without major adjustment or costly re-engineering. This will minimise your system downtime.

These plans are always customised, but the solutions are tried and tested. Carrier Rental Systems is a safe pair of hands.

Responsible and Ethical

EH&S and quality management

As part of a large global corporation, our systems of corporate governance, quality control, ethical behaviour and environmental responsibility are of the highest standard. Carrier is a professional organisation that places great importance on delivering high levels of service and places high priority on all environmental, health and safety issues in every aspect of its operations.

Stringent EH&S procedures give our clients the knowledge and peace of mind at all times that Carrier Rental Systems will protect its teams, you and your clients. Our health and safety systems are fully supported by training and regular audits. This support includes the provision of safety passports for all engineers and the use of comprehensive method statements and risk assessments prior to commencing work.
