

We've sometimes used this occasion to review Carrier Transicold's strides towards developing even more environmentally sustainable transport refrigeration solutions.

Terrific examples are our transport refrigeration units (TRUs) with ecoFORWARD™ technologies. We've optimized systems for better performance as well as EPA Tier 4 compliance. As a result, our TRUs not only meet the latest emissions requirements, but they also consume significantly less fuel, deliver improved capacities and operate quieter.

Perhaps less well known is that our ecoFORWARD TRUs are made at a facility that gets greener by the year. Our flagship North American plant in Athens, Ga., has made significant environmental improvements over the last six years, reducing:

- Water usage by 33 percent
- Industrial process waste by 44 percent
- Non-recycled waste by 69 percent
- Carbon footprint by 44 percent

Our Athens employees recently attained a milestone achievement in safety – 5 million hours without a lost-time accident. All of the above were done while also improving productivity and output, as needed to meet customer demand for our greater, more sustainable TRUs.

Dealer Locator

Instant Access! Smartphone App Locates Carrier Transicold Dealers

Our new Dealer Locator smartphone app puts Carrier Transicold's entire dealer network conveniently in the palm of your hand. It's free and available for Android devices via Google Play and for iPhones via the Apple App Store.

The Dealer Locator app lets fleets and drivers easily find and connect to any of more than 200 service operations throughout the United States, Canada and Mexico. Find contact details, hours of operation and directions to the dealer nearest to your present location, or find a dealer in a destination you select.

The Dealer Locator app provides:

- Information for every Carrier Transicold dealer in North America
- Look-up capability
- Dealer capabilities (Trailer, Truck, APU, Mobile Support, etc.)
- Hours of operation
- Maps
- Routing*
- Phone number and 24-hour emergency hotlines, where available
- Auto dialing*
- Link to dealer website
- E-mail access
- Ability to add dealers to Contacts

Dealer information can also be found at www.trucktrailer.carrier.com via our online [Dealer Locator](#).

In the spirit of Earth Day, our web-based and mobile Dealer Locators allow us to reduce the need for traditional printed dealer directories, conserving resources, while always providing our customers with the most up-to-date dealer information.

**Dependent on device and connection.*
